GOA

A life of
Luxury
awaits you
at Goa

Palm Trees have been important to humans throughout much of history. They are also widely used in landscaping for their exotic appearance.

Palms are symbols for such ideas as victory, peace, and fertility. Today, palms remain a popular symbol for the tropics and vacations.

Inspired by the universal appeal of these exotic trees, the concept of THOUSAND PALMS was evolved.

Designed by renowned Architect Hafeez Contractor the project imposes a tasteful heritage look.

Finally, it is the location of the project that takes away the cake. Goa, an epitome of natural beauty and leisurely lifestyle.
